Introduction of Cryptovest Financial Services Joining Guide

The aim of this Joining guide is to help you select an investment package, register with our online form & make a payment to purchase your shares.

Introduction

When you invest in Cryptovest Financial Services, you gain exposure to the upside in cryptocurrency growth and a share of our business profits at the same time.

Managed long exposure

Our strategy is focused on a long term investment in the crypto currency space. It sits well with investors that want to take advantage of the explosive growth of the crypto currency market; but want less risk than the traditional buy and hold strategy.

Clear Growth Plan

Our platform will be used to create a fully regulated business, after building up a sufficient track record. Thank you for being a part of that journey.

Section 1: Investment Products & Membership Packages

Investment Product: CVFS Shares

We have two types of investment products our pure SEIS & EIS eligible CVFS shares or our Crypto Basket which enables you to purchase a mixture of 50% shares and 50% crypto.

CVFS Shares

CVFS Shares give you ownership of our business, low risk exposure to crypto currencies and entitle you to additional benefits across our platform.

Crypto Basket

Our crypto basket gives you a split between shares & bitcoin and is our main crypto product. When you invest in us your account is loaded with carefully selected cryptocurrency.

Investment Types

We have two investment types, involving either a lump sum investment, or smaller periodic regular savings. With three investment packages to choose from, each package can be tailored to suit your individual needs.

Lump Sum

Our lump sum packages are designed for investors who want to obtain exposure to the crypto currency market with a one-time investment.

Regular Saver

Our regular saver packages allow investors to increase their investment amount with regular monthly investments.
